ABOUT ME

Full-stack developer building business platforms at KIMISUITE since 2023 — Nuxt, Node, GraphQL, PHP and Laravel. Came to development from healthcare: certified medical coder (AAPC, 2018) before graduating Brainster's full-stack academy with a perfect score, then teaching there for two years. Freelance for Macedonian and US clients since 2022.

EXPERIENCE

Full Stack Developer

Freelance
December 2022 - Present

As a freelancer I've worked with PHP, JS, jQuery, WordPress and Laravel for Macedonian and US clients. Selected work: mytrip.mk, honestamk.com

Full Stack Developer

KIMISUITE
September 2023 - Present

Build and maintain client platforms end to end on Nuxt, Node, GraphQL, PHP and Laravel. Shipped: app.kimisuite.com, toyota-metzger.de, hotelriviera.mk

Lecturer - assistant

Brainster
April 2024 - July 2026

Reviewed student work and gave feedback across HTML, CSS, SCSS, JavaScript, PHP and MySQL, over two cohorts of the full-stack academy.

Confectioner

Vigo 48
March 2020 - September 2023

Production and quality control to fixed recipes and tolerances, checking batch consistency against standard. Held through the career change — Brainster's academy and the first freelance clients both ran alongside this role.

MENTIONS

- Highest achievements in the full stack academy:

<https://blog.brainster.co/code-fs-dream-team-septemvri-2022/>

- Winning team in the biggest hackathon in Macedonia up to that date:

<https://blog.brainster.co/corp-hakaton-scidev/>
